

S0.2: Information about Quizzes

CSci 2041:

Advanced Programming Principles

University of Minnesota,

Prof. Van Wyk,

Spring 2018

1

Quiz format / process

- ▶ On Fridays, 10 or 15 minutes, may vary week to week.
- ▶ 1 - 3 questions, strong emphasis on previous 2 or 3 weeks.
- ▶ But some material is cumulative - e.g. OCaml programming techniques.
- ▶ One 8.5×11 inch page of **handwritten** notes allowed.

2

Question style, format

- ▶ “Write a short program to ...”, similar to exercises in class.
- ▶ Write down the type of an OCaml function or declaration. For example, of the functions in [simple.ml](#)
- ▶ Short answer questions. For example, explain what a curried function is and how it is useful.
